## OUR PRESCHOOL

Welcome to Nessah Early Childhood Educational Center. Our school is an excellent environment; we have high academic standards, wonderful staff and enriching Jewish values. At Nessah we help the child gain skills that will be useful in later life. The children develop socially and emotionally, they gain the ability to get along with others. Our educators maximize learning and the children learn even while they have fun playing.

Our enrichment programs (music, gymnastics, cooking and Shabbat activities) are done during regular school hours without additional fees.

Our school provides children ages 2-5 with a warm, patient, nurturing and academic environment, which emphasizes social and emotional growth in a Jewish setting.

Sincerely,

Eta Kashanchi  
Early Childhood Program Director

## OUR PHILOSOPHY

The early childhood curriculum includes secular curriculum as well as Judaic curriculum. We believe it is important to involve parents in an early childhood program, so our parents and teachers work together. Our goal is to understand and help each child as a unique individual by integrating the curriculum and activities to meet each child at their level and to provide appropriate play experiences that contribute to the developmental needs of the child.

## OUR STAFF

The Preschool staff consists of the Early Childhood Program Director, qualified credentialed teachers, and several assistant teachers. The staff has the academic training to work with young children in a school setting. Faculty meetings, conferences, and workshops provide continuing education for the staff.
